Dear [REDACTED]

please see the reports for the upcoming conference in Switzerland. Some changes were made in several reports, to take into account the results from the first workshop.

We will take on board some latest comments from the conference and then prepare final edits and publish the reports till end of the year.

So hope to see the Commission in Switzerland, if you have any comments or questions, please let me know.

thanks for your interest!

have a nice weekend,

[REDACTED]

> I thank you for your invitation to the final conference of the RAGES project. As for the workshop you organised last year where the draft reports were presented and commented, we agree in principle to attend as observers or to intervene in case of questions on the legal framework. However, we would like to receive the final versions of the reports you mention, to be able to assess who should attend from my Unit.
