Subject: Follow-up on October 21 Meeting

Dear [REDACTED],

Thank you very much for the opportunity to meet on October 21st.

As promised, please find attached some information on the global regulatory landscape regarding genome editing (GE) and products developed or in development using GE technologies. This information is based on publicly available information - the respective sources are included in the documents.

Please accept my apologies for the late follow-up. I look forward to future opportunities for discussion and exchange.

With best regards,

[REDACTED]
