Subject: Interservice Steering Group for a study under Article 241 of TFEU on new genomic techniques

On 8 November 2019, the Council has adopted a Decision, based on Article 241 TFEU, requesting the Commission to submit a study, by 30 April 2020, regarding the status of new genomic techniques under Union law and in light of the ruling of the Court of Justice of the European Union on mutagenesis.

In a view of timely elaboration of the requested study, I would like to invite your services to nominate the person representing your department in the Interservice Steering Group (ISSG) to contribute in defining the content of the study as well as identifying the most relevant stakeholders for targeted consultations.

The first meeting will be held on:

Tuesday 3 December 2019 at 10:00 in DG SANTE building (F101-00/42)

Please confirm the name of the participants by 29 November to the following functional mailbox: sante-consult-c3@ec.europa.eu. The agenda for the meeting will follow.

Thank you for your collaboration in this matter.

Anne Bucher
