BTO: Interview on genome editing – 22/10/20

Participants:

University of Edinburgh: [REDACTED] [REDACTED]
SANTE E3: [REDACTED]

The interview was organised on the request of the [REDACTED] with the objective of understanding the EU regulatory framework of genome edited products for [REDACTED]. The [REDACTED] was also interested in the ongoing Commission study on new genomic techniques and stakeholder consultations.

SANTE explained that in the EU genome edited products fall under GMO legislation and gave an overview of the relevant legislation. In addition, SANTE informed about the on-going work on the study on new genomic techniques.
