Subject: RE: Targeted stakeholder consultation on new genomic techniques

Dear [REDACTED],

Thank you so much for your quick response after that [REDACTED] informed you about AIPH's kind request.

AIPH is very pleased to learn the EU Commission DG Health and Food Safety agreed to include AIPH to the stakeholder consultation process on new genomic techniques.

Please, would you be so kind to send the invitation to the online survey and the pdf-version of the questionnaire to the email address : info@miabuma.nl ?

Thanking you in advance,

kind regards,
on behalf of AIPH,

[REDACTED]

Onderwerp: Targeted stakeholder consultation on new genomic techniques

Dear [REDACTED],

We have been informed by [REDACTED] from the Dutch Permanent Representation to the EU of your interest to participate in our targeted stakeholder consultation on new genomic techniques.

For your information, the objective of this consultation is to gather information and data to feed into the Commission's study on the status of new genomic techniques. The consultation targets EU-level stakeholder organisations that could be directly or indirectly impacted and/or have potential interest in new genomic techniques. The list of consulted stakeholder organisations has been published on the Commission website (https://ec.europa.eu/food/plant/gmo/modern_biotech/new-genomic-techniques_en).

We understand that AIPH has members from EU countries, as well as from non-EU countries. We agree to include AIPH to the consultation process provided you liaise with the EU-based members in order to represent EU-level interests. Please note the non-EU countries are outside the scope of the consultation. You would have to indicate in the submission all members/associations that contribute to your reply.

Please note that the questionnaire is designed for a single contribution per stakeholder, meaning that AIPH will be responsible to gather and summarise in one questionnaire all contributions from its EU members. The online survey is already open and you would have time to complete it until the 15th of May.

If you are still interested to participate, please let us know **by today** a **contact person** and **email address** where we can send the invitation to the online survey. We will also send you the pdf-version of the questionnaire.

Finally, please find attached a privacy statement for the protection of personal data, which explains how we treat your personal data and contains useful information relating to it.

Best wishes and thank you for your interest on the consultation
