C
Project MSULERA, Subproject 116

Date Initiated: 15 June 1960

Date Expires: 1 July 1962

Funds-current year: \$25,000.00

Purpose: This project provides consultative services and location together with covert procurement of special chemical products not available through other channels. It provides for a facility and necessary research and pilot and plant studies required to produce special chemicals of TSD interest. Special activities are undertaken on request.

Status: This is a continuing project. A production facility is being maintained in a ready condition to meet TSD's needs for special chemicals. A practical decontamination study has been designed for E-3. This will be undertaken and a full report prepared. A full comprehensive report on tooling up and large scale production of ortho chloroanilone nitrile has been prepared for TSD.
