Dear [redacted]

Thank you very much for your letter of June 21 [redacted] concerning radioactive LSD. At that time we were out of supply and wanted to wait until the chemist could tell us about the new batch of C^{14} -LSD we were preparing. Within the next 8-10 days, ampuls of labeled LSD will be ready containing 0.5 mg of the substance in 1 cc. The specific activity will be 6-7 microcuries per milligram (2 millicuries per millimol). We could send you only a few milligrams of this LSD, since our stock is rather small. The price of C^{14} -labeled LSD is \$ 50.-- per mg and covers only our expenses for buying the radioactive acetonitrile used for the synthesis.

With best regards, we remain,

Sincerely yours,

[redacted]
