Subject: SI and H Experimentation, 11 March 1952.

On Tuesday, 111March 1952, in Building 13. Room 20, SI and Herne iments were carried on with

Since the film sequences were not as effective as it was desired, two sequences were run off during the night's work using new lights and camera arrangements. A third sequence was run developing another theme which, if successful, will certainly be more effective than an earlier presentation that we had made.

The film work consumed the entire time and no purely experimental work was accomplished.
